## Recommendations

Make concentrated efforts for increasing enrolment, retention and quality of education in schools.

Provide comprehensive sexuality education in schools and technical and vocational education and training institutions.

Make adolescent and youth friendly sexual and reproductive health services available for adolescents by training healthcare providers, strengthening health facilities and promoting referrals through schools and mass organizations.

Ensure availability of safe spaces for adolescents such as Nang- Noi Girls Groups to provide them platform for participatory learning, leisure and recreation.

Implement comprehensive programmes and mass campaigns to raise awareness on adolescents' sexual and reproductive health, for prevention of early marriage and adolescent pregnancy co-opting mass organizations into this work.

Ensure availability of contraceptives for adolescents and remove barriers towards accessing them.

Empower adolescent girls with life skills such as decision making, leadership, communication and negotiation skills.

Develop better understanding of what constitutes gender based violence and promote gender sensitive attitudes, behaviors and power dynamics among adolescent girls, boys and their communities.
