

Impact:

Lao PDR realises a Demographic Dividend and achieves SDGs by comprehensive investments in youth, reduced adolescent pregnancy and maternal mortality.

"Noi" delays her first pregnancy, can fulfill her full potential and contributes to a sustainable future. She is healthy, educated, empowered and eventually employed.

2018	2022
No private sector partners	06+ private sector partners
01 non core donor	Over 12 donors
01 UN joint program	06+ UN joint programs
In-kind contributions : 0	In kind contribution and financial leveraging from 6+ partners
USD 0 for Gender Programme	USD 2.5 Million for Gender Programme
	UNFPA is the UN Gender lead in Laos
	50 partners joining UNFPA for the 16DOA

NOI IS A NATIONALLY RECOGNIZED ADVOCACY TOOL.

- The Noi framework is integrated in national and provincial plans
- Adolescent girls working group with diverse membership
- Noi is at the heart of ICPD commitments
- Lao CO evaluation recognized of high quality
- ICPD positioned in UNCF
- Private sector and nontraditional partnerships growing (garment factories, Crowne Plaza, Banque Franco Lao)

- Civil registration and vital statistics
- Census

Engaging youth to take action !

Expanding partnerships for adolescent girls.

EVAW

Men as full actors of change to end GBV in Laos under provincial leadership and support of chiefs of villages

Reproductive health

- Establishing three types of helplines
- Establishing telehealth and helpline to support midwives
- Engaging village chiefs to support pregnant women
- Mobile van
- Special AYFS rooms in clinics
- Noi Yakhoo app for info on SRH

Problem: Noi drops out of school, gets pregnant before the age of 18 and is exposed to increased risk of adverse reproductive outcomes and limited opportunities. Higher levels of adolescent birth rate and maternal mortality rate, especially among marginalized groups in remote areas.
